PROFESSIONAL SUMMARY

Software Engineering student at Penn State University, graduating May 2028, with experience in Java, Python, C++, JavaScript, React, Vite, and SQL. Skilled in object-oriented programming, debugging, software testing, and problem-solving through academic and personal projects. Seeking entry-level opportunities in software development or quality assurance.

TECHNICAL SKILLS

Languages & Web: Python, Java, C++, JavaScript, SQL, HTML, CSS, React, Vite
Tools & Environments: Git, GitHub, VS Code, IntelliJ IDEA, Linux, VirtualBox
Technical Concepts: OOP, Data Structures, Algorithms, Debugging, Manual Testing, UML, Databases

PROJECTS

Personal Developer Portfolio | React, JavaScript, Vite, Vercel

- Developed and deployed a responsive React portfolio showcasing technical skills, programming projects, and professional experience.
- Implemented reusable components, interactive navigation, and resume downloads using Git/GitHub for version control and Vercel for deployment.

Tetris Game | Java, OOP, MVC

- Developed a Java Tetris game using object-oriented programming and the Model-View-Controller (MVC) design pattern to separate game logic and user interaction.
- Implemented piece movement, rotation, collision handling, row clearing, and scoring; debugged gameplay functionality to ensure accurate behavior.

Traveling Knight | C++, Algorithms

- Developed a C++ program to calculate the minimum number of knight moves between two positions on an 8×8 chessboard.
- Applied graph traversal concepts to evaluate knight movements and processed multiple input test cases to produce shortest-route results.

EDUCATION

Pennsylvania State University, World Campus
B.S. Software Engineering; Certificate in Digital Arts | Expected May 2028

PROFESSIONAL EXPERIENCE

United Concordia Dental | Associate Customer Service Representative | Oct 2025 – Jun 2026

- Investigated eligibility and claims issues across internal systems while maintaining accurate, confidential records.

Jones Lang LaSalle (JLL) | Customer Service Representative | Feb 2023 – Oct 2025

- Tracked technical work orders and system records in Corrigo, coordinating issue resolution and workflow documentation.

Ibex (Robinhood Client) | Customer Service | May 2022 – Sep 2022

- Resolved 200+ account and access support requests using Salesforce, maintaining meticulous documentation for all customer interactions.
